EDUCATION BACKGROUND

Institut Teknologi Bandung Bandung, Jawa Barat
Bachelor of Science in Agricultural Engineering GPA 3.39 out of 4.00 (158 Credits) Aug 2022 – Aug 2026
Relevant courses: Agricultural Microbiology, Agricultural Systems Instrumentation and Control, Occupational Safety and Health, Big Data for Agriculture, Remote Sensing and GIS, Precision Agriculture, Automation in Agriculture System

PROFESSIONAL EXPERIENCES

Institut Teknologi Bandung Bandung, Jawa Barat
Agricultural Microbiology Laboratory Assistant Feb 2025 – Jun 2025
- Assisted in 12 microbiological laboratory experiments and RnD topics related to microbial data
- Supported research on the application of microorganisms in agriculture, contributing to 5+ research papers and improving agricultural yield predictions.

PT Inari Studio Digital Bandung, Jawa Barat
Data Scientist & AI Engineer Jul 2025 – Sep 2025
- Accessing agriculture plant crop data from web scrapping and image processing, cleaning raw data from errors.
- Create predictive models with black box testing to analyze trends and prediction using machine learning algorithms.

Institut Teknologi Bandung Bandung, Jawa Barat
Plants Sciences and Livestocks Sciences Laboratory Assistant Aug 2024 – Dec 2024
- Supported 10 laboratory experiments related to plant and livestock science, enhancing the understanding of agricultural engineering principles for students.
- Assisted faculty in the development of lab resources, ensuring all experiments adhered to scientific and safety standards, maintaining a 100% safety record.

Institut Teknologi Bandung Bandung, Jawa Barat
Land and Water Resources Engineering Laboratory Assistant Feb 2026 – Jun 2026
- Assisted in 11 laboratory and field experiments to strengthen data analyzation methods to solve and formulate water and land engineering problems in agricultural systems.
- Ensuring all experiments adhered to safety standards and using engineering techniques and methods to identify problems in water and land engineering in agricultural systems with precision.

AGAVI Bandung, Jawa Barat
Research and Development Intern in Microbiology Laboratory Jan 2026 – Apr 2026
- Identify indications of microbiological product contamination based on SOPs and laboratory standards.

Research and Development in Food Science
- Ensure the safety and maintain consistent quality of food products according to the Good Food Processing Practices (GMPs), global standards, and BPOM regulations.
- Assist in the preparation and documentation of experimental data and product formulations.

PT Inovasi Cipta Digital Bandung, Jawa Barat
Business Analyst Aug 2026 – Present
- Led kick-off and business analysis for a logistics & machinery management system for PT GeoACE, covering asset master data, equipment mobilisation, maintenance, spare parts, purchasing and reporting.
- Write and maintain the BRD and FSD, including business rules, use cases, validations, notifications, role/access matrix and non-functional requirements.
- Recommended production architecture (Laravel API, PostgreSQL, MFA) and an AI assistant feature for the client.
- Prepare and run UAT/piloting, manage change requests and support go-live sign-off.

ORGANIZATIONAL & VOLUNTEER EXPERIENCES

Keluarga Paduan Angklung ITB (KPA-ITB) Bandung, Jawa Barat
Treasurer and Head of Fundraising Department Jul 2024 – Aug 2025

- Led the development of entrepreneurship strategies for the KPA seasonal event and increasing revenue by 60% through sponsorships, donations, and ticket sales.
- Oversaw budget management for the event, ensuring financial goals were met while maintaining cost efficiency, resulting in a 15% under-budget outcome.

Keluarga Paduan Angklung ITB (KPA-ITB) Bandung, Jawa Barat
Human Resources Department Officer Mar 2023 – Jul 2024

- Evaluated team engagement and satisfaction levels through surveys and data analysis, identifying areas for improvement and increasing team performance by 35%.
- Developed and implemented performance evaluation systems, resulting in an improvement of 50+ staff productivity.

Committee of Kabinet KM ITB Bandung, Jawa Barat
Publication Officer Jun 2024 – Dec 2024

- Created and published engaging content across Instagram and TikTok, increasing follower engagement by 40% through strategic use of copywriting and visual content.
- Led the development of broadcast strategies for efficient communication, reaching an audience of 2,000+ members

Himpunan Mahasiswa Rekayasa Pertanian (HIMAREKTA) AGRAPANA ITB Bandung, Jawa Barat
Staff of Academic Division Oct 2023 – May 2024

- Compiled 100% academic archives to provide supplementary campus curriculum materials.
- Collaborated with 5+ tutors providing students to hold class tutorials.

Head of Product at ReGrow Project Sept 2024 – May 2025

- Determined LinkedIn Page engagement by 60% through educational Linkedin posts ReGrow Magazine flipbook.

ParaJuara.id Bandung, Jawa Barat
Manager of Marketing May 2025 – Present

- Managed daily inspiring content through Instagram Reels, Feeds, and Stories increasing engagement by 60% through strategic use of copywriting and visual content.
- Collaborated with a team of 5+ members to brainstorming content creating achieving a 100% content pillars task and contributing to a 40% improvement in overall team performance.

SKILLS & HOBBIES

Strategy & Project Management: Cross-functional Collaboration • Stakeholder Management • Vendor & Agency Coordination • Project Management • Commercial Planning • Business Process Improvement • Research and Development
Business Analytics & Insights: Data Cleansing & Validation • Dashboard Development • Business Intelligence
Tools: Object Oriented Programming (Python, C++) • Data Analytics (R, SQL, Power BI) • Microsoft Office Suite (Word, Excel, PowerPoint, Outlook) • Power BI • CRM Platforms • Google Workspace • Miro • Canva • Trello

LANGUAGES & CERTIFICATIONS

Languages: Indonesian (Native), English (Advanced)
Certifications: IELTS from IDP (6.5), Introduction to Data Analytics by RevoU, Data Analytics with Python by BINUS, Object Oriented Programming with C++, Supervised Machine Learning: Regression and Classification by Stanford University, AI for Productivity by Dicoding, Build an AI Agent by IBM

ACHIEVEMENTS AND AWARDS

3rd Runner-up of Young Scientist Competition in The Field of Environmental Science at Pudak Scientific, 2021

- A Provincial-level research paper competition titled “Pengaruh Volume dan Lama Fermentasi Ragi Tape terhadap Produksi Bioethanol dari Limbah Kulit Pisang untuk Pembuatan Hand Sanitizer”.

Silver Medalist of Research Essay Competition Soedirman Event of Animal Husbandry 7.0 at Universitas Jendral Soedirman, 2023

- A National-level scientific research paper competition titled “Potensi Biodiesel Berbahan Dasar Lemak Ayam dengan Katalis Kulit Telur Ayam untuk Mengatasi Global Boiling”.

3rd Winner of Agricultural “The Landformation” Scientific Paper Competition at Universitas Padjadjaran, 2024

- A National-level scientific research paper competition titled “Studi Potensi Perbandingan Efektivitas Biodegradasi Tanah yang Terkontaminasi Total Petroleum Hydrocarbon oleh Spent Mushroom Substrate (SMS) Agaricus bisporus dan Pseudomonas aeruginosa”.
